

AMENDMENT UNDER 37 C.F.R. § 1.111
Application No: 10/531,282
Attorney Docket No. Q87437

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (currently amended): An acrylic film, composed of a resin composition (C) that comprises an acrylic graft copolymer (A) containing an acrylic ester rubber polymer and a methacrylic polymer (B) containing 80% by weight or more of methyl methacrylate, wherein

(1) the content of the acrylic ester rubber polymer in the resin composition (C) is 5% by weight or more and 30% by weight or less,

(2) the average particle size of the acrylic ester rubber polymer is 500 to 2000 Å,

(3) the relationship between the average particle size d (Å) of the acrylic ester rubber polymer and the amount w (% by weight) of a cross-linking agent used in the acrylic ester rubber polymer satisfies the following equation:

$$0.002d \leq w \leq 0.005d,$$

(4) the graft ratio of the acrylic graft copolymer (A) is 30% or more and 200% or less, and

(5) the reduced viscosity of methyl ethyl ketone soluble matter in the resin composition (C) is 0.2 to 0.8 dl/g.

2. (canceled).

AMENDMENT UNDER 37 C.F.R. § 1.111
Application No. 10/531,282
Attorney Docket No. Q87437

3. (currently amended): The acrylic film according to claim 1-~~or~~2, wherein the content of the acrylic ester rubber polymer in the resin composition (C) is 15% by weight or more and 30% by weight or less.

4. (currently amended): The acrylic film according to claim 1-~~or~~2, wherein the content of the acrylic ester rubber polymer in the resin composition (C) is more than 20% by weight and 30% by weight or less.

5. (currently amended): The acrylic film according to claim 1-~~or~~2, wherein the acrylic graft copolymer (A) is prepared by: graft polymerizing a monomer mixture containing 86% by weight or more of a methacrylic ester onto the acrylic ester rubber polymer in a first step; and graft polymerizing a monomer mixture containing 85% by weight or less of a methacrylic ester onto the resultant graft polymer in a second step.

6. (currently amended): A laminate containing the acrylic film according to claim 1-~~or~~2.

7. (previously presented): The laminate according to claim 6, produced by injection molding.
